HIKVISION[®]

Verpleegoproepsysteem

Empowering Healthcare with Intelligent Communication

Designed for modern hospitals and nursing homes, Hikvision's Smart Nurse Call Solution integrates voice intercoms, alarm linkages, and centralized management into one efficient system. By leveraging a flexible IP architecture, this solution provides full scenario coverage—from patient bedsidesto nurse stations—helping medical staff respond faster, streamline workflows, and improve the overall quality of patient care.

Rich Varieties, Full Coverage

Diverse devices and accessories adapt to wards, nurse stations, patient rooms, and restrooms.

Quick Call, Instant Response

Full Intercom and alarm functions enable the nurse station to respond to beds rapidly

Flexible Control

The IP-based design allows easy deployment and centralized management.

Digitalized System

- Clear Information Display - Complete presentation of medical data
- Easy to Record & Query - Reducing data loss and information delay

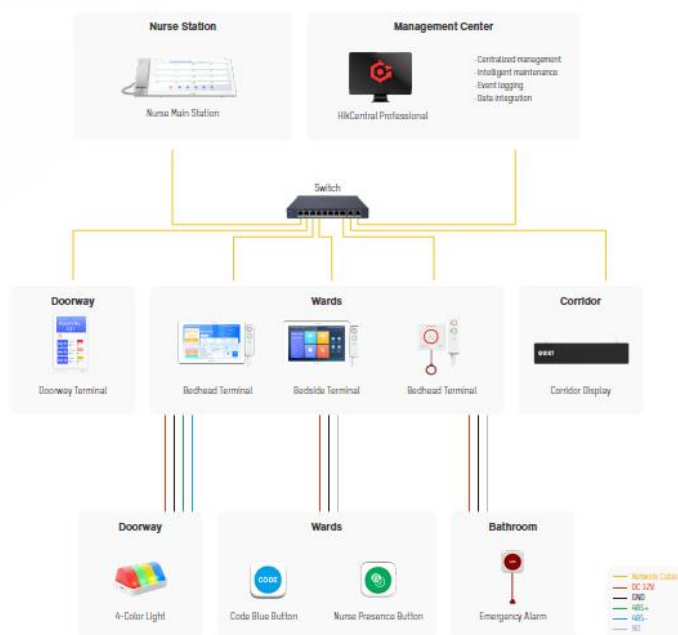

Flexible Control

The IP-based design enables easy deployment and centralized management. Admins can monitor status, configure settings, and check logs remotely, significantly lowering maintenance costs.

Digitalized System

From visual displays to data tracking, the system digitizes the entire workflow. Automatic recording of call logs and response times provides the insights needed to improve care quality and efficiency.

01 Clear Information Display – Complete presentation of medical data

Nurse Station

- Displays bed numbers, patient names, and nursing levels
- Pop-up notifications for incoming calls and alarm events

Ward

- Clear display of patient details
- Access to educational videos and content
- Calling function
- Easy access to hospital information

Doorway

- Displays room and bed numbers clearly
- Shows assigned doctor and nurse information

Corridor

- Immediate display of active call information

02 Easy to Record & Query – Reducing data loss and information latency

Easily check call history, alarm event logs, and more

Nurse Main Station

HiKCentral Professional

Rich Varieties, Full Coverage

From wards to corridors, our diverse terminals and accessories adapt to any scenario. The system scales easily, ensuring full coverage for single departments or entire hospitals.

Nurse Station

HikCentral Professional Management Center

Nurse Main Station

- Manage calls and alerts from all terminals
- Display ward and bed information clearly
- Provide data access and performance analytics
- Broadcast messages to all or selected terminals

Ward

Bedside Terminal

Bedhead Terminal

Call Button

Nurse Presence Button

Code Blue Button

- Support two-way intercom between patient and nurse station
- Display patient information and play audio or video
- Support control for call, cancel, and emergency functions
- Trigger nurse presence or code blue in emergencies

Doorway

Doorway Terminal

4-Color Light

- Display doctor, nurse, and patient information
- Enable one-button call to nurse station
- Indicate calls and alarms with lights and messages
- Show different alarm types with multi-color indicator

Corridor

Corridor Display

Coming Soon

- Double-sided LED display
- Instant call alarm display

Washroom

Emergency Button

- Enable one-button emergency call for quick response
- Send alerts directly to the nurse station
- Ensure patient safety with waterproof design

Quick Call, Instant Response

Built on two-way audio intercom and smart alarms, the system ensures instant bed-to-station communication. Staff are alerted immediately to routine or urgent requests, guaranteeing a fast response every time.

Patient quick call

Nurse instant response

Product Showcase

Bedhead Terminal

- Screen size: 10.1 inch
- Resolution: 1280 x 800
- Operation system: Android 10.0
- Power Supply: 12 VDC, standard PoE
- Installation: Wall mounting

Bedside Terminal

- Screen size: 10.1 inch
- Resolution: 1280 x 800
- Operation system: Android 10.0
- Power Supply: 12 VDC, standard PoE
- Installation: Arm mounting

Doorway Terminal

- Screen size: 10.1 inch
- Resolution: 1920 x 1080
- Operation system: Android 10.0
- Power supply: 12 VDC, standard PoE
- Installation: Wall mounting

Nurse Main Station

- Screen size: 15.6 inch
- Resolution: 1920 x 1080
- Operation system: Android 7.1
- Power Supply: 12 VDC, standard PoE
- Installation: Table mounting

LED Dot-matrix Corridor Display

- Screen size: 608 mm x 152 mm
- Power supply: 5V 6A
- Installation: Ceiling mounting

Call Button

- Operation system: Linux
- Power supply: 12 VDC
- Installation: Wall mounting

4-Color Light

- Light: Red, yellow, blue, green
- Power supply: 12 VDC
- Installation: Wall mounting

Nurse Presence Button

- Alarm output: 1
- Power supply: 9-24VDC
- Installation: Wall mounting

Code Blue Button

- Alarm output: 1
- Power supply: 9-24 VDC
- Installation: Wall mounting

Emergency Button

- Alarm output: 1
- Protective level: IP68
- Power supply: 9-24 VDC
- Installation: Wall mounting

HikCentral Professional Software

- Supported Terminals: Max 2048

Nurse Call Demo Case
